### Cayman National donates to Annual Science Fair

The Rotary Club of Grand Cayman received a donation from Cayman National in support of its Annual Science Fair.

Accordingly to Dr. Desiree Charles, of Rotary Club Central the need to promote the interest in science among students as well as provide opportunities for them to practise the related skills was recognized by the Rotary Club Central. As a result the decision was made to launch the annual science fair. "We are very happy that Cayman National has decided to support us in this venture and this attests to the fact that their organization recognise the need for the development of skills other than those related to the financial industry and are willing to give back to the community. Rotary Central is grateful for their generous contribution to the Science Fair, said Dr. Charles."

In making presentation on behalf of the Group, Mr. Ormond Williams, Cayman National Bank's President commented: "In a dynamic and diverse world, we must equip our youth with the skills they require to enable them to function effectively in our society. We view the Science Fair as an excellent opportunity to expose our youth to non-traditional areas of study which would provide them with sound and interesting alternatives to build the future of our country."
