

Fraud Protection

We at Cayman National ask that you be vigilant of scams, fraud and phishing attempts that try to obtain your customer information.

Here are a few useful tips:

- Cayman National will **never** ask you to provide, confirm, verify or update your banking credentials or account information such as: customer or business ID, user name(s), password(s), PIN codes or any similar information.
- Do not click on suspicious popups or links.
- Do not write any login ID, password, or personal financial information in an email.
- Access Online Banking through www.caymannational.com only.
- Do not access Online Banking through open or public access points such as: internet cafes, public libraries or public Wi-Fi connections etc.
- Sign up for Security Alerts to receive specific text or email messages for credit & debit card activity as an added security measure. Email notify@caymannational.com to sign up today.

If you have provided your banking information via email, text or a website link, please contact Customer Support immediately at 345 949 8300.
