Interim Report for the Period to 31 March 2019

**CAYMAN  
NATIONAL**

Cayman National Corporation Ltd. is pleased to announce Net Income of C\$13,267,535 for the six month period to 31 March 2019. This performance represents an increase of 27% on the same period a year ago.

Total Income was up by 17% on a year ago at C\$43,404,350 with expenses up by 13% at C\$29,683,686.

The interest rate increases seen last year have continued to enhance our income and we continue to control expense closely so that we expect the trend in figures to be maintained.

Total Deposits reduced by 11% on a year ago, mainly due to expenditure by a couple of major depositors. Yet, despite this reduction, the balance sheet remains very robust with Total Assets remaining about C\$1.5 billion. Shareholders' Equity increased by 21% to C\$131,070,737 as a result of retained earnings.

As shareholders are aware, the offer from the Republic Group to acquire a majority stake in Cayman National was completed in March, and Republic now holds 74.9% of our shares. Following this transaction, we are now benefitting from the attributes of being part of a larger group whilst still retaining our local identities in the Cayman Islands, the Isle of Man and Dubai.

The market price for our shares has settled down since the offer from Republic closed, and recent trades have been recorded at around US\$5.00. We are pleased to report reasonable activity in the market at this level following the Annual General Meeting at which our shareholders voted to approve a final dividend of 6 cents per share, taking the total dividend payment for last year to 12 cents per share.

With a sound set of results at the half-year, we are pleased with our performance and we will continue to work hard to maintain a solid performance.

As always we are grateful to our staff for their continued commitment to our success. We continue to thank and appreciate our customers, clients and shareholders for their support, confidence and loyalty.
